WORK EXPERIENCE:

North Atlantic Container Trading
Backend Web Developer

August 2023 - PRESENT

As a Backend Web Developer, I am responsible for creating, maintaining, testing, and debugging the entire backend of the company's system. This includes developing and optimizing system logic, managing the database, ensuring smooth data and application integration, creating and maintaining APIs, and overseeing other backend processes to ensure everything runs efficiently and reliably.

TSA Philippines
Order Management Officer

August 2019 – Feb 2023

As an Order Management Officer, I enter order details into client systems to initiate the commissioning of products and process service requests for customers. This involves accurately recording and managing customer orders, ensuring timely processing, and addressing any service-related needs to ensure customer satisfaction.
